Parkwood Hall School - Swanley

Collinstown were appointed by Pellings LLP and the Royal Borough of Kensington & Chelsea to install high performance double glazed uPVC sash windows.

Collinstown teamed up with Roseview Windows for this challenging project, almost all the windows are well over two metres tall, many are in huge double and triple combinations, and most have arched heads.

The school reported that they turned their heating off two months earlier than usual. They also found the classrooms much more comfortable in the summer, because of the solar control glass used.

The full Front elevation and side returns were completed over three phases.

- Scaffolding
- Installation of windows and Doors
- Electrical installation
- Minor alterations
- Decoration
- Rainwater goods
- Management of specialist sub contractor
