School House Yard - Plumstead

Collinstown were appointed by Pellings LLP and Gallions Housing Association to upgrade the existing timber sash windows to this converted school house block of 44 flats.

Collinstown teamed up with Ventrolla who used their perimeter sealing system which eliminates the inherent problems associated with sash windows such as draughts, rattles, dust ingress and reduced energy efficiency.

Collinstown's own team carried out decorations to the entire block using the Dulux Weathershield System which was regularly inspected by an ICI representative.

In a letter sent to Gallions Housing, the school House yard residents took the opportunity to highlight the quality of work and craftsmanship shown by Collinstown, especially our site manager Jason Ely for his proactive, consistently approachable and competent manner.

- Tenant Liaison
- Upgrading of sash windows
- Scaffolding
- Decoration
- Management of specialist sub contractor
